Don't Let Canwest SLAPP* Briemberg and YOU!

The **SERIOUSLY FREE SPEECH COMMITTEE** invites you to endorse the following statement.

To the owners of CanWest: we the undersigned say…

Drop your groundless legal suit against Mordecai Briemberg, and stop your political persecution of him.

The contentious issues related to the rights and actions of both Israelis and Palestinians, just like other contentious issues of public interest, require open discussion, one that encompasses a broad spectrum of differing perspectives. Any attempt to silence -- by harassment, intimidation or censorship -- the voices of those with whom one disagrees is anti-democratic and unacceptable.

*SLAPP - Strategic Lawsuit Against Public Participation. This form of litigation is frequently filed by corporations to intimidate and silence critics or opponents by burdening them with the cost of a legal defense so that they abandon their criticism or opposition.
